

inspiration | aspiration | qualification

The Certificate of Solution Oriented Kinesiology is a comprehensive course that delves into Kinesiology and Neuro-Training. Designed to encourage the exploration of self and create wonder in the “who, what, why and how” of the human experience, this course offers solid and in-depth understanding of who we are. This course is a scaled down version of our Certificate of Solution Oriented Neuro-Training.

The Certificate of Solution Oriented Kinesiology while industry accredited, provides more of a personal interest focus that studies for practitioner qualification.

Spanning five face-to-face classroom-style training modules, with optional assessments and the ability to upgrade to the Certificate of Solution Oriented Neuro-Training, this course represents 160 hours of personal interest education.

a new beginning

Personal Interest

Much of this course can be module per module to give students the opportunity to "test the water" before diving in. Each module without any assessment starts from just **\$660**. Students can "upgrade" to the certificate at any time by completing the assessments and paying the associated fees. There is no fee penalty for taking the Personal Interest study option. Contact us for more information.

certificate of solution oriented kinesiology

for personal interest

MODULE 1: Art of Solution Oriented Neuro-Training (4 days/32 hours)
This, the first module of the certificate course introduces you to the wonderful world of our neurology, our nervous system, and our subconscious. We explore how our brain uses defence patterns to avoid the stresses we can't resolve. You will learn how to access the nervous system and the subconscious using muscle monitoring. You will learn how to resolve stresses rather than become stuck in it. By the end of the 4 days, you will have gained an understanding of the philosophy and the skills necessary to the Kinesiology and Neuro-Training practitioner.

MODULE 2: Principles of Recuperation
In this module we work with the processes of recuperation and degeneration. How to work within the Universal Laws of Recuperation, how to recognise when symptoms are a problem or merely indicating a recuperation process. You will learn how Time influences our ability to be well. You will learn skills to check for elemental, nutritional and energetic influences that may be limiting the recovery process. (4 days/32 hours)

MODULE 3: Blueprint 1 (4 days/32 hours)
This module is aimed at clearing away the restrictive inherited patterns that influence our behaviours. You will learn how Cheirology (hand analysis) used as a reference, can clear specific subconscious emotional and mental stresses. You will learn unique and powerful integration skills to remove specific psychological defences. Blueprint One includes understanding and skills aimed at developing your personal awareness and self reliance. Some of the skills in this workshop are: Defusing brain functions, fear, time line, learned helplessness, negative self behaviours.

MODULE 4: Innate Intelligence
There are many ways of expressing our Intelligence and in this module we work with 9 forms of Intelligence in a very congruent and empowering way. When we don't use our intelligence, fears and habits become locked into our physical body. In this module you will learn many skills for changing these patterns and enhancing the expression of the intelligences. Some of the skills in this module are: Hierarchy, Laws of Cure, Hypertonics, Reflexes, Intelligences, Reactive/Reactor circuits, Tendino-Muscular meridians. (4 days/32 hours)

MODULE 5: Integration (4 days/32 hours)
Understanding new information and acquiring new skills becomes a powerful combination when they are applied with artistry. In this module we synthesise the artistry of the practitioner, consolidating the application of the work into client driven and solution oriented. You are now applying your skills to train a person's neurological activity to respond in an intelligent way rather than operating from ancestral habits. Some of the skills in this module are: Meridian Science, Dichotomy, Chakras, Essences, Viscera and Cranials.

Class Hours: 160 | Self Study: 0 | Total hours: 160 | Fee: \$4,200
